

‘Once a Jew resides in a community for six months or more, he/she is understood to be responsible for the life and health of that community. Everyone, even the poorest, pays in their share, so that everyone, no matter their status, can receive.’
 Adapted from Talmud by Reb Tirzah.

Angel Fund Request Form

Nevei Kodesh has a policy of keeping dues as low as possible to fund basic minimal expenses. As in the quote above, we believe that it is in the highest good that everyone pay some share of those dues. We also understand that these levels may be too high for lower income members. We have therefore worked out a system to invite other members to contribute a bit extra to a fund that would partially subsidize memberships for those in difficult circumstances. Since our requests for dues reductions sometimes exceeds these contributions, we need to have a fair and consistent way to assess the needs of those who request financial assistance and grant dues subsidies equitably. To that end, we need basic information on your personal situation. All information provided by you will be held in strict confidence.

Name _____ Number of other adult family members ____ Kids ____
